

The City of Oneida, Department of Public Works will begin the annual '*Spring Cleanup*' picking up green waste debris (leaves, grass clippings, garden debris, limbs and twigs greater than 2" in diameter, etc) on a scheduled basis starting Monday, April 16, 2012. It is requested that all brush material (limbs and twigs greater than 2" in diameter), be stacked in neat piles with the cut ends all in one direction. All other green waste debris (leaves, grass clippings, garden debris, etc) are to be placed between the sidewalk and street line prior to the scheduled day. The use of clear bags to contain green waste is encouraged. However, the first time a street is spring cleaned, loose piles of green waste will be picked up. After a street has been spring cleaned, only green waste which has been placed in clear bags will be picked up.

The schedule for the spring cleanup will be as follows:
